

DU-5K-NEMA4-KYBD

DU-5K NEMA 4/4X Industrial Keyboard

Overview - Industrial Keyboard

The DU-5K industrial keyboard is designed to meet NEMA 4X specifications. Featuring an ABS polycarbonate case, 116 keys including 24 function keys, and a Force Sensing Resistor pointing device. This keyboard offers a lifetime of over 10 million cycles, can operate in conditions from -20° to +60° C, and is 100% humidity resistant. Mounting holes and both PS/2 and USB options make this industrial keyboard a versatile solution to your needs for a keyboard that can operate in the harshest conditions.
